

Epson EB-L630U

The Epson EB-L630U stationary Laser LCD projector has 6200 Ansi-Lumen, a contrast of 2500000:1 and a WUXGA 1920 x 1200 resolution. Thanks to the laser technology, the projector has a light life of up to 20000 hours, which is equivalent to over 13.7 years at 4 hours of use. Including an integrated media player with which files can be played directly. With the lens shift function, the projector can be positioned very freely. An image width of up to 800 cm is possible as the projector has 6200 Ansi lumens. The projector can create rooms with residual light with a smaller image width, we recommend a maximum of 533 cm. Playing 1080P is also no problem for the projector, and it even has the option of projecting HD 1080P Blu-rays onto the ceiling thanks to 360° projection.
